

**Arthur "Kit"
Weathers, D.D.S.**

Dr. "Kit" Weathers is a clinician, author, inventor and international lecturer, recognized as one of the Top Clinicians in Continuing Education by Dentistry Today every year since 1997. Dr. Weathers uses humor, magic and 35 years of clinical experience to simplify and systemize all phases of dentistry.

Dr. Weathers has lectured worldwide on technologies, products and processes designed to simplify the practice of endodontics for the general

dentist. The developer of a range of dental products, Dr. Weathers pioneered the *EndoMagic!* Nickel Titanium file system for general dentists seeking to improve both the quality of care and the economics of the endodontic services they offer. As the clinical technique developer of the X-tip Intraosseous Anesthesia System, he has assisted practitioners in need of patient-friendly anesthetic application methods. Dr. Weathers is the author of numerous articles on innovations in endodontic treatment products and processes as well as intraosseous anesthesia delivery systems. Dr. Weathers has also introduced the well-reviewed C.E.Magic "edutainment" interactive learning system to the field of continuing education in dentistry. Dr. Weathers serves as the Director of Endodontics at the Las Vegas Institute for Advanced Dental Studies (L.V.I.). Lecturing extensively to dental organizations, Dr. Weathers integrates an academically grounded approach to his subject with humor, magic, and mnemonics to enable his audience to recall his well-accepted techniques. Dr. Weathers offers numerous two-day hands-on training sessions at the Las Vegas Institute for Advanced Dental Studies (LVI), and at his facility outside of Atlanta, in Griffin, GA.

Dr. Weathers is the Director of Endodontics at the Las Vegas Institute, and creator of the *Root Tip of the Week*, available free at EndoRootCamp.com.

Nashville, Tennessee

Academy of General Dentistry
Approved PACE Program
Provider
TN AGD #219327
FAGD/MAGD Credit
(12/31/07) to (12/31/11)

Course Objectives
Pulp Fiction a.k.a. "Truth Decay"

Objectives:
After completing this seminar, the participant should be able to:

- Identify the difference between reality and illusion "Pulp Fiction"
- Identify out-dated concepts and avoid "Truth Decay"
- Identify an endodontic preparation that works, with proper case selection, on virtually every tooth
- Utilize rotary nickel-titanium files without fear of breakage
- Complete same-day restorations of endodontically treated teeth
- Be diagnostically competent and know when to refer
- Define a technique to simplify emergency treatment for endo cases
- Utilize a new technique for obturating root canals that will increase efficiency of care for your patient

Discover the secrets of single-visit endo. Forget what you have learned before – multiple-visit endo just gives bacteria an opportunity to thrive between visits. And it gives fearful patients a chance to make a "clean getaway" without completing the necessary therapy. Single-visit endo is faster, easier and more effective. Here is just a taste of what you will learn:

- The top 10 cases every GP should consider referring to insure profitability and reduce stress

- The one mistake in endodontics that almost every dentist makes – and how to avoid it
- How to assure you will never start a root canal you won't be able to finish
- How to place the rubber dam in 10 seconds or less
- The clearest, most comfortable obturation technique using a tapered preparation and tapered gutta purcha with no eugenol for better bonding results
- Root canal cleaning and shaping
- Localization of elusive tooth pain
- Greater accuracy in your delivery of local anesthesia, infiltrations and blocks
- A step-by-step approach to eliminate problems caused by poor access
- How to avoid breakage of your rotary nickel titanium files
- The rationale behind single-visit endodontic treatment
- How to best handle and avoid post-operative medications
- Guidelines for proper case selection: Judge cases you can successfully complete and which ones to refer for specialty care

- How to develop proficiency and confidence with root canal obturation
It's all about systems:

A systemized approach of everything from proper case selection, instrumentation and obturation to tips for making and keeping patients happy
Dozens of incredible tips and techniques for flawless endo – all will be

Rooms are blocked at the **Holiday Inn Airport- Briley Pkwy** at the group rate of \$99 per night. This hotel is very close to many shopping and nice restaurants. I encourage everyone to stay there. Reservations can be made by calling the hotel direct at 1 (615) 883-9770 and ask for in-house reservations. Identify yourself as a group reservation with the Tennessee Academy of General Dentistry.

Holiday Inn Airport-Briley Pkwy
2200 Elm Hill Pkwy
Nashville, TN 37214

Previous Master Track participants please plan to arrive on Thursday night at 7:00pm for homework presentations. Have your slides or PowerPoint presentations ready to go. Please limit your presentations to 20 minutes. For those who cannot arrive on Thursday evening, we will continue presentations on Friday evening (7-10pm). This makes for long days but is our only option other than arriving for half a day on Thursday.
